

Help Getting an iPad

Before you start----RESEARCH (devices, APPs, accessories=cost)

1. Self-pay is one way to secure a device. Here are some ideas to make it possible:

- *Have bank automatically deduct funds from your account
- *Home Party (Cookie Lee Jewelry, Longaberger, Pampered Chef, Tastefully Simple, ..)
- *Ask family and friends to give birthday/holiday gifts as iTunes cards
- *Businesses offering percentage for your cause.
- *Community outreach—local newspapers & TV stations
- *Local charities (Boy Scouts, church groups, fraternal organizations, VFW...)
- *Garage Sale (Don't have items to sell, get great items you can sell at www.craigslist.org in the FREE section and www.freecycle.org.)

2. Earn it

*Setting up an account for your individual child and forward site to family and friends. They can donate or purchase items for your cause.

4. Medical Coverage for iPads and/or APPs

*Check your insurance policy's coverage for DME(durable medical equipment), many carriers do not cover a SGD (speech generated device) that is designed to provide other functions. ---Laptops, desktop computer, PDAs and iPads. Guided Access now making it possible to get iPads covered.

* Bulking device, protective case and APPs together for a full package.

*****Use language pertinent to the funding source*****

Medical- stress the “therapeutic nature” of the need and “medical necessity” of device

Educational- stress “academic achievement” and “educational goals”

Vocational- stress “self-sufficiency” goals and potential

5. Writing Assistive Technology into the IEP

****Describe the AT with features needed, NOT by the name of specific device

****Assistive Tech Eval---bring your own device to show benefits

6. GRANTS---application process that usually requires denial of payment from another source, such as insurance. Each has their own specific guidelines and deadlines.
